Our Light Experiment

Name: ____________________________  Date: ________________

My season is: ____________________________

The amount of sunlight during this season is:

[Images of sun symbols: Large, Medium, Small]

A lot of sunlight  Some sunlight  A little sunlight

The steps to our experiment:

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
After one week, I think our plants will look like this:
It has been ____________ days since we planted our seeds.

Now, our plants look like:

I wonder ____________________________________________
